## **Business Requirements Follow Up**

This is to check with whom I have talked if the features are applicable or not. It is also to give you a chance to provide feedback and add another features if you have thought of one not included here. Best advice with the "Yes or no question is to go with gut instinct as this is anonymous and I want a honest response. Thank you for your time

\*Required

## A nutritional application designed to assist the user in managing their dietary and nutritional needs

Depending on the requirements, either Wen application or a mobile application with be employed

Each question is a feature that you would answer yes if you like the sound of it, no if you do not and N/A is you do not know
